

Students Equipped for the Job Market

JKUAT's College of Engineering and Technology (COETEC) in collaboration with the Institution of Engineers of Kenya (IEK) staged a career talk aimed at sensitizing and preparing the college students for an effective shift from the classroom to the industry, Friday May 3. Eng. Godfrey Marambe, IEK Capacity Building and Mentorship Committee member, counselled the students to embrace patience and be relentless in their undertaking as engineering is a slow gratification profession. <http://www.jkuat.ac.ke/students-equipped-for-the-job-market/>
