

Dirty Money and Mobile Phones are Harmful to Health - Report

Researchers who carried out a study among 395 food handlers in 15 different types of outlets in Kenya's Nairobi County have warned that dirty money and mobile phones are harmful to health and can cause death. The study was carried out by researchers from Jomo Kenyatta University of Agriculture and Technology (JKUAT), Kenya Medical Research Institute (Kemri), and US Army Medical Research Unit in Kenya. <https://www.africanexponent.com/post/10276-report-reveals-dirty-money-and-mobile-phones-can-harm-you>
